DETAILED ACTION

Information Disclosure Statement

Applicant is to supply document EP 0 750 152 B1, which is repeatedly referenced in the instant specification and pertinent to the examination of the instant application.

Specification

The disclosure is objected to because of the following informalities:

In the amendment to paragraph [0001] of the specification filed 4/7/06, the phrase "having a nozzle...catch legs" on lines 2-7 should be underlined per 37 CFR 1.121.

In the amendment to the specification filed 4/7/06, an instruction is given to "delete paragraphs [0143] on page 24 and 25 in its entirety". This is incomplete and unclear.

Appropriate correction is required.

Claim Objections

Claims 10-13 are objected to because of the following informalities:

In claim 10, line 9, the first comma should be deleted.

In claim 10, line 10, the comma should be deleted.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 12 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 12, lines 1-2, "the additional approximately centered section (of the catch spring)" lacks proper antecedent basis.

Allowable Subject Matter

Claims 10 and 11 are allowed over the prior art.

Claims 12 and 13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See attached ***Notice of References Cited***.
